AIM Score: 3.9 out of 10

INITIAL ACCESSIBILITY FINDINGS

- Missing first-level heading (H1)
- Empty links detected
- Excessive alt text descriptions
- Limited ARIA labeling
- Navigation accessibility concerns
- Multiple contrast warnings

INITIAL WAVE SCORE

3.9 / 10

2	16	15	94
Errors	Contrast Errors	Alerts	ARIA

Initial testing identified several structural accessibility opportunities that impacted screen reader compatibility and semantic page organization.

ACCESSIBILITY & BRANDING CONSIDERATIONS

Low Contrast Retained on Purpose

Some low contrast warnings were intentionally retained to preserve the established Wedgwood East branding. Readability remains acceptable for the site's primary audience and does not impact key content.

Redundant Links Kept for Usability

Multiple clickable areas leading to the same destination were intentionally kept. Our main demographic is the elderly population. They are our members who buy the most memberships and they benefit from extra places to click.

KEY ISSUES IDENTIFIED

- Missing semantic structure and H1 heading
- Links with no text
- Images with excessive or non-descriptive alt text
- Limited ARIA labels and roles
- Navigation structure could be more accessible
- Multiple contrast issues affecting readability

UPDATED RESULTS (AFTER IMPROVEMENTS)

The following screenshot shows the updated results from the WAVE Web Accessibility Evaluation Tool after implementation of accessibility improvements.

0 Errors 0 Contrast Errors 0 Alerts

33 Features 26 Structure 116 ARIA

AIM Score: 6.0 out of 10

IMPROVEMENTS COMPLETED

- Added proper first-level heading (H1) to improve semantic structure and SEO
- Resolved all empty link issues
- Optimized and shortened alt text for images
- Added ARIA labels and accessibility attributes
- Improved semantic structure and page organization
- Enhanced navigation clarity for assistive technologies

FINAL WAVE SCORE

6.0 / 10

0	Improved Semantic Structure	Improved ARIA Support	Improved Overall Accessibility

ACCESSIBILITY & BRANDING DECISIONS

Low Contrast Retained on Purpose

Some low contrast warnings were intentionally retained to preserve the established Wedgwood East branding. Readability remains acceptable for the site's primary audience and does not impact key content.

Redundant Links Kept for Usability

Multiple clickable areas leading to the same destination were intentionally kept. Our main demographic is the elderly population. They are our members who buy the most memberships and they benefit from extra places to click.

RESULTS SUMMARY

- Significant improvement in accessibility score (3.9 to 6.0)
- All critical errors resolved
- Better screen reader compatibility and user experience
- More accessible navigation and structure
- Accessibility improvements balanced with user experience and branding needs

BEFORE vs AFTER

Initial Score 3.9 / 10 → Final Score 6.0 / 10

Increase: +2.1 points
